ITEM # NMR, SEALLESS MAGNETIC COUPLED CENTRIFUGAL PUMPS TYPE NMR
General

Magnetic coupled DICKOW-Pumps of series NMR are of sealless design. The containment shell forms a closed system with hermetically sealed liquid end. The NMR are designed for the chemical process industry. A leak-free magnetic drive is used to improve plant and personnel safety in industrial heating plants.

Applications

Magnetic driven NMR-pumps are designed to improve plant and personal safety, especially when handling toxic, explosive or other dangerous liquids which react with the
